

Help Out on State Natural Areas

Kohler Park Dunes Work Day

Get outside and enjoy a day on the shoreline of Lake Michigan controlling spotted knapweed at Kohler Park Dunes State Natural Area. Work with DNR staff to protect the fragile dune landscape and control invasive species such as spotted knapweed and sweet clover. Help us make headway on invasive species while learning about dune ecology, enjoying views of the lake, and making a few new friends. Bring a bag lunch, snack, and water. If you can't stay for the whole day, no problem, any help is appreciated! No skills needed as you will be trained onsite. Work will include hand pulling and bagging herbaceous weeds.

Date: Wednesday, July 25th, 2018

Time: 9:00am-2:00pm

Directions: Meet at the Sanderling Nature Center off Beach Park Ln in Kohler-Andrae State Park. From Interstate 43 take the exit to county road V. Go East on county road V to the park entrance.

What to wear: Dress for the weather and wear clothes that will keep you cool, yet protect you from the sun. Long sleeves, pants, work boots, and gloves are recommended.

Contact, cancellation, and RSVP info: If you plan to come please email Jacob.koebornik@wisconsin.gov or call 920-360-3139. If you think the work day may be cancelled (poor weather) please call or email Jake.
